KOHER'S NEW WAY

Twisted PCD End Mill Line-up!

KOHER'S PCD Twisted End Mills Series, XCELDIA has helical PCD cutting edges.

The helical shape edge reduces cutting resistance, thus it provides easy-processing with higher speed compared to straight blade tools.

HIGH SPEED!

FLUTE TWISTED

XCELDIA's helix flute angle can be optimized from 25 degree to high degree upon customer's cutting condition!

- Tungsten Carbide body prevents often vibration during process.

BETTER PERFORMANCE!

PCD WITH BETTER SURFACE!

New developed design of PCD endmill is now available for your better performance!

- STARTING FROM DIAMETER 20MM~
- PCD WITH LONGER TOOL LIFE
- HIGHER SPEED & BETTER SURFACE!
